THANKSGIVING. PROCLAMATION BY THE GOVERNOR. PMICELARIATION BY THE GOVERNOR.

AS A PEOPLE we have abundant reason for the exercises of gratitude to the Supreme Being, for the condition of beath, the abundant harves, the penceable submission to ordines and order, and the general prosperity with which we have been favored, as a State during the past year.

And as the unworthy recipients of these and other kind blassings, we are called upon to sairably recognize the Beneticient source, "whence cometh every good and perfect gran."

THEREFOHE, I, LECKARD J. FARCHLI, GOVERNOR of the State of Wisconsin, hereby opediar Thursday, the Twenty source day of November next, as a day of Thankegiving to ALMICHTY GOD. And respectfully request the people of Wisconsin to properly observe the same.

In winners whereof I have hereunto set my hand and caused the Great Seal of the State to be affixed 1.5 at Martison, this twenty fifth day of October, in the year' of Jour Lord, One Thousand Eight Hunderd and Fifty Two.

By the Governor, LEONARD J. FARWELL.

THE QUESTION SETTLED.

The Telegraphic reports which we publish this morning have no room for doubt that FRANKLIN
PRESCE has been elected President of the United States by a very decisive majority. We have no disposition to comment upon the result this morning. Indeed the figures are sufficiently expressive to save us that labor. They speak for themselves in very intelligible terms.

From the returns received, we think that the vote of the State of Wisconsin will be cast for Gen. Pierce by a majority of from 4 to 6,000 over Gen. Scott. This is far larger than our most sanguing friends anticipated, as the highest presious calculation was barely 3,000,—Wisconsin.

So says the Wisconsin after election. The day before the News, the "official organ" of the party, made the following prediction :

Wisconsin is sure for Pierce by 5,000 majority, at the lowest figure—our sanguine friends claim 8,000. Here is a difference of only 5000 between the

rival oracles. A Row and Bloodshed.—Yesterday afternoon, as a couple of men, who had been quarreling bit-terly over some matter relative to the election, were going across Spring-st. bridge, their wrath suddenly boiled over, and they went at each other like a couple of bull-dogs. The crowd gathered around them, and some of those who composed it became excited, and there was danger of a general scrimmage for a time. One of the men was badly bruised. The officers were at hand after a while, Sheriff White among the number, and after getting somewhat mauled themselves, succeeded in arresting three of the rioters, and marched

BAD BUSINESS.—The Free Democrat of last evening "takes on" terribly about "Jenny Lind"! insisting that she elected Daniel Wells to Cou-

Open water in Wellington (Annuel.)

The safe return of Ledy Franklin's private expedition, the Prince Albert, with the glorious news of open water up the Wellington Channel, which was supposed by some to be forever blocked with a barrier of loc, is a matter of no small moment to these who gredeeply interested in the subject, and to Captain Penny it must indeed be a source of the highest satisfaction.

It will be remembered that it was his "conviction that Sir John Franklin had gone through the strait leading northwest out of Wellington Channel (which for the present the named Queen Victoria Channel) and that he had gone off in clear water, and was beyond their reach.

That this will now prove to be the case there seems to be a most reasonable prospect, as Sir Edward Belcher, and that gallant young officer Lieut. Sherard Osborne have proceeded in "clear water" into the Queen's Channel, with the Assistance and Pioneer, steam-tenders.

Eirst time dist it had been disturbed since the crection.

It was opened in the presence of Mr. I. W.
Page, John Jsy, Geo. I. Abbot, T. Leary, formerly of N. Y., and some half-a-dozen others, relatives and friends of the family. It was an occasion of mous solemnity and impressiveness.

The bodies of the decased members of Mr. Webster's famify, were exhumed yesterday, and taken from St. Paul's Church, and placed in the tomb at Marshfield:

His regains will be in the centra.

The Faneral Preparations—Expressions by Mr. Webster's Neighbors—The Will, &c.

Although Deniel Webster did not meet his death at the seat of Government, the Executive chimed, on behalf of the country, the privilege of providing for the rites of burind in the country's anne. In pursuance of this proposition, all the arrangements have been made as I have already said, by gontlemen connected with the State Department, who have studied the expressed wisbes of the family in all the details. The body was embalmed soon after death, by a process recently discovered; and, although the countenance was slightly changed since them, the homeon remains may essaily be kept—as is the intention—to that all who attend the burial can look core more upon the features of the great departed.

The incidents connected with this sad event are, many of them, though very simple, quite touching. Not the least interesting of these are the exhibitions of servow among the depandents of Marshield. Mr. Webster sacms to have been peculiarly fortunate in attaching to him, by ties of love and friendship, those who lived upon his farm in no matter how humble a capacity. His kindness to them all is a constant theme. The unbeding statesman here yielded himself up entirely to the onie repression of the providence of the conference of a region of the providence of the conference of the conference of the providence of the conference o
